PRESIDENT'S MESSAGE

I would like to wish all the members of the New Haven Dental Association a happy, healthy, and productive New Year.

I would like to challenge all members to become actively involved in our association for the advancement of our profession. Even showing up at the monthly meetings to stay current on issues will go a long way in keeping organized dentistry strong.

The February meeting is devoted to home talent night and the March meeting is slated to be a fun meeting with Dr. David Katz. I am most excited about the April meeting with the subject being lasers in dentistry. Those attending will learn about all aspects of lasers, which include both hard and soft tissue applications. Our patients are becoming more knowledgeable about different procedures, and the use of lasers is a commonly asked question.

Remember, in this world there is much that we do not have control over, but we must not squander opportunity over that which we can positively influence.

Sincerely,

Tom
